Notes:

1. This list has been assembled from the MG-TABC list of Chassis Numbers and registration numbers in "M.G.s on Patrol" by Andrea Green.
2. There is no doubt that the above List of Police T-ABC's is not complete and other owners of cars in our group probably have or know of former police cars. Any information on other T-ABC police vehicles would be appreciated.
3. Some of the information on the above List may need verification by the current owners of these cars. Any corrections or additional information on T-ABC police cars should be sent to Barc Cunningham.
4. Some copies of original photos of T-ABC police cars are included in this file. If current owners have copies of original photos showing their cars in Police service they are encouraged to add these photos to this section of the T-ABC list.
5. It would be very nice if the owners of former police cars could also send a current photo of their car along with a short history of the car to be included in this file.
